CURES AND COMFORT FOR THE BED-RIDDEN.

—BY

Holloway's Ointment.

This wonderful Ointment acts like magic in relieving and curing old sores, wounds, bad legs, ulcers and eruptions of the skin; when rubbed on the surface it penetrates and purifies each tissue on its passage, and exerne the most wholesome influence over the internal structures It heals by cleansing all animal fluids with which it comes in contact, and thereby promotes a sound and permanent cure.

Gout and Rheumatism.

To sufferers from the racking pains of Rheumatism and Gout this ointment will prove invaluable. After fomentation with warm water the soothing action of this Ointment is most remarkable; it seems at once to lessen inflamation, ease pain, reduce the swelling, restore natural circulation, and expels the disease. For the above complaints Holloway's Ointment and Pills are infallible spe

Diptheria, Bronchitis, Sore Throats, Coughs and Colds

his class of diseases may be cured by well rubbing th Ointment, three times a day, upon the throat, chest and back of the patient. It will soon penetrate and give immediate relief. In all stages of Influenza, Colds and Bronchitis, this treatment may be followed with efficiency nd safety—indeed, it has never been known to fail.

All Varieties of Skin Diseases, Scrofula and Scurvy.

This Ointment is a certain cure for Ringworm, Scurvy Scrofula or King's Evil, and the most inveterate skin diseases to which the human race is subject. They cannot be treated with a safer or more speedy remedy than Holloway Ointment, assisted by his celebrated Pills which act opowerfully on the constitution and so purify the blood that these disorders are completely eradicated from the system, and a lasting cure obtained

Dropsical Swellings.

Beware of this dangerous and stealthy complaint which frequently creeps upon us by slight squeamishness or trifling jaundice, of which little or no notice is taken until the legs begin to swell. The cause of the evil must be looked to in the liver and stomach, therefore set to work earnestly by taking Holloway's famous Pills according to the printed instructions and rubbing the Ointment very effectively over the pit of the stomach and right side where those organs lie. Most dropsical cases will readily yield to the combined influence of the Ointment and Pills

Piles, Fistulas, and Internal Inflammation.

These complaints are most distressing to both body and mind, false delicacy concealing them from the knowdge of the most intimate friends. Persons suffer for years from piles and similar complaints when they might be Holloway's Ointment with instant relief, and effect their own cure without the annoyance of explaining their ailment to any one

Disorders of the Kidneys, Stone and Gravel.

Are immediately relieved and ultimately cured if this Ointment be well rubbed twice a day, into the small of the back, over the regions of the kidneys to which it will gradually penetrate and in almost every case give immediate relief; but perseverance will be necessary to effect a to rough cure.

Both the Ointment and Pills should be used in the following cases:—

LIQUOR CARBONIS DETERGENS

OR

Concentrated Alcoholic Solution of the

Constituents of COAL TAR

[Extract from the Lancet, Dec. 22, 1866.

LIQ. CARBONIS DETERGENS—We are very sceptical of the value of new remedies, and it was in a spirit of scepticism that we tried the liq. carbonis detergens. It is represented to be a concentrated alcoholic solution of the constituents of coal-tar, and to contain all the active ingredients of the tar, to wit, benzine, naphthaline, and phenic acid. The addition of water, with agitation, makes a durable emulsion, in which the tar remains in a state of fine suspension, almost equivalent to solution. Our therapeutical experience of the preparation is very satisfactory indeed. In our hands it has been a most effective agent in the case of various skin diseases, especially of the chronic eczematous class; and one case of psoriasis which had resisted all other kinds of treatment speedily got well under the application of the liq. carbonis detergens. We esteem it a very valuable addition to our list of skin remedies, and worthy of a very extended trial by the profession. In the above classes of disease, and in various others, such as fetid ulcers, etc., the preparation is put into the form of soap.

Consulate of the United States of America,

I am instructed to publish the following Regulation for general information.

ALLEN FRANCIS,
U. S. Consul.

DEPARTMENT OF STATE,
Washington, D.C., August 13, 1867.

To the Consular Officers of the United States

Your attention is called to the 25th section of the Act entitled "An Act further to prevent smuggling, and for other purposes," approved July 18, 1866, which is as follows:

"Sec. 25. And be it further enacted, That, on and after the 1st day of July next, the several provisions of the Act entitled 'An Act to regulate the collection of duties on imports and tonnage,' approved March two, seventeen hundred and ninety-nine, relating to manifests, shall apply as well to vessels owned in whole or in part by foreigners as to vessels of the United States; and that the Secretary of State send copies of this section to all consular officers of the United States in foreign countries"

Your attention is also called to the fact that, by Section 3 of chap 42 of the laws of the second session of the 39th Congress, the section above quoted was amended by inserting the word "March" in place of the word "July" therein.

It will be seen that the law has already gone into effect, which places vessels owned in whole or in part by foreigners upon the same footing as vessels owned by citizens of the United States, so far as the production of manifests is concerned.

You are, therefore, instructed to inform the masters of all vessels leaving your port for the United States that they are required to produce manifests in accordance with the provisions of section twenty-three (23) of the act to regulate the collection of duties on imports and tonnage, approved March 2 1799 a copy of which is hereto annexed. CHLORODYNE.

DR. J. COLLIS BROWNE'S CHLORODYNE. Vice-Chancellor Sir W. Page Wood stated publicly in court that Dr J. Collis Browne was undoubtedly the inventor of Chlorodyne, that the whole story of the defendant Freeman was deliberately untrue, and he regretted to say it had been worn to. See the TIMES, July 13th, 1864.

Dr J. Collis Browne's Chlorodyne—The Right Hon Earl Russell communicated to the College of Physicians and J T Davenport, that he had received information to the effect that the only remedy of any service for Cholera was Chlorodyne. See LANCET, Dec. 31, 1864.

Dr J. Collis Browne's Chlorodyne—Extract from MEDICAL TIMES, Jan 12th, 1866—"Is prescribed by scores of orthodox medical practioners. Of course it would not be thus singularly popular did it not supply a want and fill a place."

Dr J. Collis Browne's Chlorodyne is the best and most certain remedy in Coughs, Colds, Asthma, Consumption, Neuralgia, Rheumatism, &c.

Dr J. Collis Browne's Chlorodyne is a certain cure in Cholera, Dysentery, Diarrhœa, Colics, &c.

Dr. J. Collis Browne's Chlorodyne—Extract from the General Board of Health, London, as to its efficacy in Cholera—"So strongly are we convinced of the immense value of this remedy, that we cannot too forcibly urge the necessity of adopting it in all cases." From A. Montgomery, Esq., late Inspector of Hospitals, Bombay—"Chlorodyne is a most valuable remedy in Neuralgia, Asthma and Dysentery. To it I chiefly owe my restoration to health after eighteen months' severe suffering and when all other medicines had failed."

An Effectual and Speedy Remedy

FOR THE

GOUT RHEUMATISM SCIATICA LUMBAGO & NEURALGIA.

Farnan's Specific has stood the test of years, and its beneficial influence, as well as the extraordinary rapidity with which it acts on the system and removes pain and the cause of pain—that is to say, the condition of the blood and stomach which produced the affliction—can be witnessed to by thousands. The cure is as COMPLETE as it is RAPID, and, strengthened by the testimonies of a large body of patients who have received almost INSTANTANEOUS relief after all other remedies have failed, the proprietor has the utmost confidence in offering it to the notice of the public. To the constitution it is harmless; to the fluids of the human frame it adds a healthy impetus; to the system generally it is invigorating to a degree unparalleled, and both sexes may take it to equal advantage. A dose taken about once a month, operates most effectually in preventing a return of the complaint.

The Abyssinian Difficulty.

English papers say that the expedition will be organized in India, under the command of Sir Robert Napier, Commander in-Chief at Bombay, who is to be intrusted with the chief political as well as military authority. Sir Charles Staveley has been selected as second in command. A quantity of steam transport has been taken up and will start for Bombay immediately, so as to be there in the course of November; but the Bombay Government have also provided a quantity of transport for themselves. Officers have also been despatched to various places to purchase camels and mules. Massowah will probably be selected as the base of operations, but this point is not finally settled. Three steamers have been provided, which are being fitted up as hospital ships, and will be furnished with appropriate stores. Medical officers will be appointed to them. The whole of the arrangements are under the direction of the India Office in order to secure unity of action; but the expense will be borne by Imperial funds. "William Coninghame" remarks;—Now that we have got into the scrape, let us, at all events, act with caution. Instead of sending a corps of 10,000 fighting men, accompanied by twice that number of camp followers, let picked men only be sent, or volunteers, say 5000 or 10,000, with the smallest possible amount of baggage, and with none but men able to fight. This invasion of the dominions of Theodore, king of a million of savages like himself, by an army of 30,000 men, is simply preposterous. The estimated cost of the expedition is at least seven millions. The Indian military authorities are to run up the bill, and, this time, we are to have the pleasure of paying it. But who is to be held responsible for the amount? The Government are pressing forward the arrangements for the expedition with every possible rapidity. Fifteen large steamers have been chartered for the purpose of carrying troops, and three others which have been provided are being fitted up as hospital ships, and will have medical officers appointed to them and be furnished with suitable stores. Four officers of the Royal Artillery, four of the Military Train, and an engineer officer, who are to be accompanied by sixteen veterinary surgeons, are under orders to proceed first to the south of France and Italy, and, if necessary, to the countries bordering on Abyssinia, to purchase transport animals. It is said that a squadron of English dragoons, four regiments of Indian native irregular cavalry, and two batteries of artillery armed with steel rifled 7-pound howitzers, now being prepared in the Royal Arsenal at Woolwich, will form part of the force. The expedition, which is to be organised in India, will be under the command of Sir Robert Napier, Commander-in-Chief at Bombay, who is also to be intrusted with the chief political authority. Sir C. Stavely will be second in command. Sir Robert Napier, the political and military chief of the Abyssinian expeditionary force, is, says the *Army and Navy Gazette*, essentially an Indian officer—one of the products of that great forcing bed the Bengal Engineers, now, alas! "caved in," and levelled and amalgamated out of its identity. He is scarcely related to the universal Napiers of land and sea of Merchistoun; but he has many of the very best qualities of the race, and withal is very simple, very clever, very amiable, sincere and kindly. His professional skill is his least commendation. Lord Clyde, who had no great love sometimes for Company's officers, although he used them now and then to mortify a Crimean regular, placed great faith in Napier when he was attached to his army operating against Lucknow, and his good opinion was well sustained by Sir Robert's very admirable management of his subsequent work. It will tax all his energies and his ability, however, to bring this war to a satisfactory conclusion if Theodore takes it into his head to run away and carry off his prisoners into what, for the use of a better word, we will call the interior. In General Staveley there will be an exceedingly careful and judicious soldier, to whom General Napier can confide the purely military details with confidence.

SPECIAL TO THE DAILY BRITISH COLONIST

LAST NIGHT'S DESPATCHES

Eastern States.

CINCINNATI, Nov. 16.—The City Council by a vote of 22 to 8 passed a resolution of opposing a further contraction of the currency, and in favor of paying all bonds not made payable in gold.

Europe.

BERLIN, Nov. 15.—The German Parliament was opened to-day by the King of Prussia, who congratulated the members on the general prosperity and gave a cordial welcome to those provinces now for the first time represented. The conflict with the States of the South of Germany now allied to Prussia will no longer be feared.

PARIS, Nov. 15.—Marshal Bazaine has succeeded to the command of the third army corps with his headquarters at Nantes.

MANCHESTER, Nov. 15.—The prisoners convicted of murder will be executed on November 23d in this city.

Second Despatch.

Europe.

PARIS, Nov. 16—Late despatches from Athens say since the failure of the Turco-Cretan Mission, hostilities have been resumed in Candia.

MANCHESTER, Nov. 16—It is thought that the sentence of most of the Fenians recently convicted by the Special Commission will be commuted to hard labor for a term of years. Allen, whose offence was the worst presented of the criminals, will probably be executed Nov. 23.

LONDON, Nov. 16—The conference proposed by Napoleon for the settlement of the Roman question seems to be attended with difficulties. The Pope objects to any conference whatever, and several Powers which had been invited to participate are divided on the question of the necessity of such a conference. It is reported that Spain is the only power which supports the temporal power of the Pope in any event.

It is now said that the United States is to pay eleven and a half millions for the Islands of St. Thomas and St. Croix, subject to the claim of France on the latter. It is for seven and a half millions, and two millions the former.

PARIS, Nov. 16—The meteoric shower on the night of the 13th was very brilliant. Many thousands of meteors were visible.

DUBLIN, Nov. 14—Warren and Halpin have been sentenced to 15 years' imprisonment and Costello for 12 years.

European Items.

A Paris paper announces the marriage of a son of Mrs Trelawney, "better known under the name of the Countess de Beauregard, and especially as Mrs Howard. The son, whose birth was long prior to the marriage of this lady, has married a rich Hungarian."

The unveiling of the statue of M. Billault, the celebrated French statesman, took place at Nantes on the 15th. The first speech was made by the Deputy Mayor. He was followed by M. Rouher, Minister of State, who was received with great applause, and who delivered an address, in which the career of the illustrious subject was traced in appropriate terms. A banquet at the theatre in the evening and a display of fireworks concluded the event.

Mr H Labouchere, M. P., while recently travelling in Germany, got into a difficulty with a person named Luigi di Baroni Farina. The Baron, it would seem, was not fit society for ladies with whom Mr Labouchere was acquainted, and the latter accordingly went and told his friends to beware of the foreign nobleman. Mr Labouchere further informed Farina that he had no right to the title he was assuming; to which Farina replied, "My brother is a baron, and I will give you a good thrashing." After this we have a tableau in which Mr Labouchere seizes the Baron, or the Baron's brother, by the throat, and 'was about to give him the punishment he deserved, when the bystanders interposed and pulled him from me." This is the statement of Mr Labouchere. On the other hand, Farina, in a letter to the *Europe Nouvelle*, asserts that he thrashed the Englishman to his "heart's content," and for subsequently asserting that he was "supported by women" threatens to "flog him again."

The last Prussian troops of the Luxemburg garrison evacuated that place on the 9th inst., and thus the stipulations of the London treaty have been fully carried out on the part of Prussia. On the same day a division of Luxemburg militia entered the fortress as its future garrison. The Luxemburg *World*, of the 11th, reports that occurrence in the following manner;—"In the morning of the day before yesterday the last battalion of Prussian troops quitted our town. Before marching to the railway it drew up on the Wilhelmsplatz, where the colonel of the regiment exchanged parting salutations with the burgomaster, and proposed three cheers for the inhabitants, amid whom the garrison had passed many pleasant days. The burgomaster, in his reply, expressed the same kind feelings for the Prussian garrison. From the Wilhelmsplatz the battalion marched to the government building, where it filed off before Prince Henry. The Prince, dressed in his admiral's uniform, and attended by the commander of the Luxemburg Chasseurs, his adjutant and several other officers, went down to the battalion in order to take leave of it. From the government building the battalion marched to the railway station, whither it was accompanied by many citizens and by the Luxemburg officers."

NAVAL ETIQUTTE.—Lord St. Vincent was exacting upon minute points of etiqutte to a degree which was irksome to his subordinates. It was the custom for a Lieutenant from each ship in the fleet to go on board the Admiral's ship daily, I believe, for orders, but the office was always fulfilled unwillingly. On one occasion, and in a particular vessel, a dispute arose among the Lieutenants, each tried to show that the duty was not his, until, to the great relief of the others, a spirited young fellow volunteered. He went on board and introduced himself to the Admiral, then Sir John Jervis, who, after scanning his uniform, said, "I cannot give my orders to you.

"Why not, sir?"

"I don't know who you are."

"I am a lieutenant."

"I should not judge so, from your dress,"

"I am aware of no defect in my dress."

"You have no buckles on your shoes."

The lieutenant departed, supplied the omission, and returned again presented himself upon the admiral's quarter-deck, prepared to take revenge. The first formalities having been gone through, Sir John was proceeding to give his instructions, when, to his great surprise, the lieutenant said he could not take his orders.

"Why not?" inquired the startled Jervis.

"I don't know who you are," was the reply.

"I am Sir John Jervis, commander-in-chief of his majesty's fleet, etc"

"I cannot tell by your dress," (for in truth the admiral wore a simple undress.)

Sir John without another word—for he was fairly caught—retired into his cabin, whence he soon emerged in the full costume of an admiral, and the officer, having expressed his satisfaction, received his orders. The story goes that speedy promotion followed in this case, for Jervis had the good sense to appreciate the spirit of the one as well as the wit of the other.

GOLD PLACER IN THE EAST RIVER.—It is an historical fact that some time during the Revolutionary War the British frigate Hussar was sunk near Hellgate, taking down with her a considerable quantity of specie. The precise amount of this specie was never made public, John Bull having always doggedly refused to gratify his American cousin with the figures, fearing, probably, to excite his cupidity. But within the past quarter of a century it somehow leaked out that this treasure amounted to nearly $4 000,000 all in golden sovereigns; and, soon after that revelation, a Mr Pratt; of this city, began to dive in and around the boiling caldron of Hell Gate, until, as he avers, he had fixed the exact locality, full 20 fathoms deep, of the old ribs which enclosed the immense heap of treasure. For 17 years past, Mr Pratt has been diving and diving, but obtaining thus far, only a few sovereigns which he constantly carried about with him as specimens of his mine at the bottom of the sea. Quite recently, a company, of which Mr Pratt is the President, was formed for the purpose of going into deep sea and mining on a large scale; and arrangements have been already made with a diving company, who will begin work this autumn. Like all miners at the outset, the Company are enthusiastic in their belief of an early realization of their hopes. The suspicion does not seem to have occurred to them that the Hussar may have been purposely sunk by her officers, after having been duly robbed by them of all her specie. One may, however, be allowed to express his wish that the efforts of the divers may turn out a complete success in the shortest space of time; for a God-send of $5,000 000 in gold would prove a decided relief to Wall street in the present scarcity of the precious metal.—*New York Correspondence.*

MARRIAGE ON THE CARS.—The monotony of railroad traveling was somewhat relieved to those on board a Grand Trunk train bound east recently, by a romantic episode, namely, a wedding on the cars! The preliminary circumstances are similar to those of thousands of other matrimonial adventures in which stern and unrelenting parents forbid the nuptials, and so drive the love-stricken pair to the necessity of eloping. The parties to the present affair reside about four miles back of Colborne, a small station on the Grand Trunk, between Port Hope and Kingston, and to which place the runaway pair made their way on Sunday night with the intention of being married. The marriage licence was, however, only received, when they were informed that the parents were in pursuit; and being pushed for a resource to escape until the nuptial knot was tied, went on board the passing train, taking up a clergyman on the way, who, being aware of a strong attachment on the part of the pair, sealed their bliss. The station was barely left, when Mr Hunt, conductor on the train, was informed by the man of black cloth that it was his intention to celebrate a marriage on board, and pointed to the couple to be made one, asked his assistance in obtaining for them quarters together on the crowded train. The gentlemanly conductor acquiesced, and the ceremony was performed while the train dashed along at the rate of 40 miles an hour, the passengers forming a bridal party of no small dimensions and certainly novel appearance! In a short time the train reached Belleville, where the happy couple left amid the hearty congratulations of their newly made acquaintances.—*London (C W) Advertiser.*

DIRECT TRADE—The fact that New Westminster is the most advantageous place to which to ship goods for distribution on the mainland has been clearly demonstrated during the past week. A small cargo of produce was shipped to this port a short time ago. Upcountry dealers finding that they could purchase here to better advantage than by going 'below,' gobbled it up quickly and returned to the interior without the regular spell of sea sickness and a fit of the blues which a further journey would have given them—*B. C. Examiner.*

The "small cargo of produce" so modestly alluded to by our bashful cotemporary, was in reality a large cargo, for the vessel in which it was conveyed from Victoria was laden to the gunwales The style of architecture of the vessel was Chinook, and it belonged to the class "Kermin." The "cargo" was shipped by "Jim," the successor of the renowned King Freezy, who, possessing a mercantile turn of mind, every fall sends two or three similar cargoes to the "capital," taking care, however, to inform the "capitalists" that they come from foreign parts, for which innocent deception, having six wives and thirty nine children depending upon him for support, it is to be hoped "James" will be forgiven. The eagerness with which the innocent Westministerians "gobbled up" the cargo proves that they can distinguish a good potatoe from a bad one, and the success that his venture met with has emboldened the brave warrior to ship another "small cargo of produce" to the same destination. We wish the worthy Islander continued success, and trust that in his dealings with the "capitalists" he will bear in mind these two old proverbs, viz: "The nimble sixpence is better than the slow shilling;" and "A bird in the hand is worth two in the bush." *Verbum sat sapienti!*

DIVORCE AND MARRIAGE IN ENGLAND.—In England, in 1865, forty-nine divorced persons again married. Twenty-three gentlemen, who had got rid of their wives, replaced them by as many spinsters. Four gentlemen, similarly situated, but of a bolder order of mind, sought in the society of four widows a return of that bliss which vanished at the interference of Sir Cresswell Cresswell, and seventeen bachelors and three widowers, men of unexampled courage, led to the altar twenty divorced ladies. In only one case did a lady and gentleman who had both discarded the marriage tie again subject themselves to its restrictions. So says the London *Spectator.*

NO RAILWAY SLEEPERS.—In Germany, some of the railways are now constructed without wood. The rail is made about nine inches high, with a broad flat base, which rests on a well-prepared bed of ballast, and when properly placed is further supported by a layer of gravel. Thus constructed, the jerky motion of a train, occasioned by numerous cross sleepers, is done away with; the hammering sound becomes a steady continuous roar, the longitudinal bearing is distributed over a greater distance, and the need for repairs occurs but rarely.

A VERY large meeting of the working classes was held under the presidency of the Lord Mayor in the Mechanics' Institute, Dublin, on behalf of Parliamentary reform for Ireland. A letter was read from John Stuart Mill, in which he said: I have long been convinced that complete justice to Ireland was scarcely to be hoped for unless by a reform of Parliament sufficiently thorough to take away the present preponderance of the landed interest, and to transfer a large share of political power to classes who are not under the influence of landed or church prejudices.

MR WELLS, of the firm of Wells, Fargo & Co., is building on the Cayuga lake, New York State, and entirely at his own expense, an edifice for a young ladies' seminary. The building will present a front to the lake of imposing architecture, and will cost, when finished and furnished, about $100,000 The grounds include 10 acres, and may eventually be increased to 30 acres. Over the main entrance of the building is placed the following inscription; 'The Gift of Henry Wells to Female Education."

NAVAL.—H M. S. Scout, Capt, J A. P. Price, will sail from Esquimalt for the coast of Mexico and the Southern Station to morrow. The Stout will be absent until May or June next. The officers and men of the Scout have been universal favorites with the colonists, and all, we are sure, will join with us in wishing them a pleasant cruise and a safe return to these waters....About 150 supernumaries for the ships on this Station are now on the way out from England.

QUARTZ-MILL.—The Bank of British North America have commenced the construction, at the rear of their premises, of a mill for crushing quartz, which will be used in connection with the assay office. Spratt & Kreimler furnish the machinery.

NEW WESTMINSTER is about to protest against the new scale of pilot charges, whereby pilots taking vessels into that harbor are authorized to charge from $5 to $7 per foot, while vessels piloted into the barbore of Victoria, Esquimalt, Nanaimo and Burrard Inlet, will only pay from $3 to $4 per foot. THROAT CUTTING.—On Friday evening last a Songish Indian, while standing in front of his lodge at the Flathead village had his throat cut by a Hydha in a shocking manner. An Effectual and Speedy Remedy

FOR THE

GOUT RHEUMATISM SCIATICA

LUMBAGO & NEURALGIA.

Farnan's Specific has stood the test of years, and its beneficial influence as well as the extraordinary rapidity with which it acts on the system and removes pain and the cause of pain—that is to say, the condition of the blood and stomach which produced the affliction—can be witnessed to by thousands The cure is as COMPLETE as it is RAPID, and strengthened by the testimonies of a large body of patients who have received almost INSTANTANEOUS relief after all other remedies have failed, the proprietor has the utmost confidence in offering it to the notice of the public. To the constitution it is harmless; to the floods of the human frame it adds a healthy impetus; to the system generally it is invigorating to a degree unparalleled, and both sexes may take it to equal advantage A dose taken about once a month, operates most effectually in preventing a return of the complaint.

AYER'S
Sarsaparilla

FOR PURIFYING THE BLOOD,

And for the speedy cure of the following complaints:

Scrofula and Scrofulous Affections, such as Tumors, Ulcers, Sores, Eruptions, Pimples, Pustules, Blotches, Boils, Blains, and all Skin Diseases.

OAKLAND, Ind., 6th June, 1859.

J. C. AYER & Co. Gents: I feel it my duty to acknowledge what your Sarsaparilla has done for me. Having inherited a Scrofulous infection, I have suffered from it in various ways for years. Sometimes it burst out in Ulcers on my hands and arms; sometimes it turned inward and distressed me at the stomach. Two years ago it broke out on my head and covered my scalp and ears with one sore, which was painful and loathsome beyond description. I tried many medicines and several physicians, but without much relief from anything. In fact, the disorder grew worse. At length I was rejoiced to read in the Gospel Messenger that you had prepared an alterative (Sarsaparilla), for I knew from your reputation that anything you made must be good. I sent to Cincinnati and got it, and used it till it cured me. I took it, as you advise, in small doses of a teaspoonful over a month, and used almost three bottles. New and healthy skin soon began to form under the scab, which after a while fell off. My skin is now clear, and I know by my feelings that the disease has gone from my system. You can well believe that I feel what I am saying when I tell you, that I hold you to be one of the apostles of the age, and remain ever gratefully, Yours,

ALFRED B. TALLEY.

St. Anthony's Fire, Rose or Erysipelas, Tetter and Salt Rheum, Scald Head, Ringworm, Sore Eyes, Dropsy.

Dr. Robert M. Preble writes from Salem, N. Y., 12th Sept., 1859, that he has cured an inveterate case of *Dropsy*, which threatened to terminate fatally, by the persevering use of our Sarsaparilla, and also a dangerous *Malignant Erysipelas* by large doses of the same; says he cures the common *Eruptions* by it constantly.

Bronchocele, Goitre or Swelled Neck.

Zebulon Sloan, of Prospect, Texas, writes: "Three bottles of your Sarsaparilla cured me from a *Goitre* — a hideous swelling on the neck, which I had suffered from over two years."

Leucorrhœa or Whites, Ovarian Tumor, Uterine Ulceration, Female Diseases.

Dr. J. B. S. Channing, of New York City, writes: "I most cheerfully comply with the request of your agent in saying I have found your Sarsaparilla a most excellent alterative in the numerous complaints for which we employ such a remedy, but especially in *Female Diseases* of the Scrofulous diathesis. I have cured many inveterate cases of Leucorrhœa by it, and some where the complaint was caused by *ulceration* of the *uterus*. The ulceration itself was soon cured. Nothing within my knowledge equals it for these female derangements."

Edward S. Marrow, of Newbury, Ala., writes: "A dangerous *ovarian tumor* on one of the females in my family, which had defied all the remedies we could employ, has at length been completely cured by your Extract of Sarsaparilla. Our physician thought nothing but extirpation could afford relief, but he advised the trial of your Sarsaparilla as the last resort before cutting, and it proved effectual. After taking your remedy eight weeks no symptom of the disease remains."

Syphilis and Mercurial Disease.

NEW ORLEANS, 25th August, 1859.

DR. J. C. AYER: Sir, I cheerfully comply with the request of your agent, and report to you some of the effects I have realized with your Sarsaparilla.

I have cured with it, in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the cure of *Venereal and Mercurial Disease*. One of my patients had Syphilitic ulcers in his throat, which were consuming his palate and the top of his mouth. Your Sarsaparilla steadily taken cured him in five weeks. Another was attacked by secondary symptoms in his nose, and the ulceration had eaten away a considerable part of it, so that I believe the disorder would soon reach his brain and kill him. But it yielded to my administration of your Sarsaparilla; the ulcers healed, and he is well again, not of course without some disfiguration to his face. A woman who had been treated for the same disorder by mercury was suffering from this poison in her bones. They had become so sensitive to the weather that on a damp day she suffered excruciating pain in her joints and bones. She, too, was cured entirely by your Sarsaparilla in a few weeks. I know from its formula, which your agent gave me, that this Preparation from your laboratory must be a great remedy; consequently, these truly remarkable results with it have not surprised me.

Fraternally yours, G. V. LARIMER, M. D.

Rheumatism, Gout, Liver Complaint.

INDEPENDENCE, Preston Co., Va., 6th July, 1859.

DR. J. C. AYER: Sir, I have been afflicted with a painful chronic *Rheumatism* for a long time, which baffled the skill of physicians, and stuck to me in spite of all the remedies I could find, until I tried your Sarsaparilla. One bottle cured me in two weeks, and restored my general health so much that I am far better than before I was attacked. I think it a wonderful medicine. J. FREAM.

Jules Y. Getchell, of St. Louis, writes: "I have been afflicted for years with an *affection of the Liver*, which destroyed my health. I tried everything, and everything failed to relieve me; and I have been a broken-down man for some years from no other cause than *derangement of the Liver*. My beloved pastor, the Rev. Mr. Espy, advised me to try your Sarsaparilla, because he said he knew you, and anything you made was worth trying. By the blessing of God it has cured me, and has so purified my blood as to made a new man of me. I feel young again. The best that can be said of you is not half good enough."

Schirrus, Cancer Tumors, Enlargement, Ulceration, Caries and Exfolation of the Bones.

A great variety of cases have been reported to us where cures of these formidable complaints have resulted from the use of this remedy, but our space here will not admit them. Some of them may be found in our American Almanac, which the agents below named are pleased to furnish gratis to all who call for them.

Dyspepsia, Heart Disease, Fits, Epilepsy, Melancholy, Neuralgia.

Many remarkable cures of these affections have been made by the alterative power of this medicine. It stimulates the vital functions into vigorous action, and thus overcomes disorders which would be supposed beyond its reach. Such a remedy has long been required by the necessities of the people, and we are confident that this will do for them all that medicine can do.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the Relief of Consumptive Patients in advanced Stages of the Disease.

This is a remedy so universally known to surpass any other for the cure of throat and lung complaints, that it is useless here to publish the evidence of its virtues. Its unrivalled excellence for coughs and colds, and its truly wonderful cures of pulmonary disease, have made it known throughout the civilized nations of the earth. Few are the communities, or even families, among them who have not some personal experience of its effects — some living trophy in their midst of its victory over the subtle and dangerous disorders of the throat and lungs. As all know the dreadful fatality of these disorders, and as they know, too, the effects of this remedy, we need not do more than to assure them that it has now all the virtues that it did have when making the cures which have won so strongly upon the confidence of mankind.

Medical.

THE GRAND PROMOTERS OF HEALTH.

HOLLOWAY'S PILLS.

The grand secret of attaining happiness is to secure good health, without which life is stripped of its pleasures. The first irregularity of any function should be checked and set right by appropriate doses of these fine purifying Pills, which strengthen the system by thoroughly cleansing the blood from all impurities. They balance disordered action, remove the cause of disturbance and restore its normal and natural power to every organ, without inconvenience, pain or any other drawback

Derangement of the Bowels, Liver and Stomach Complaints.

This medicine is so well known in every part of the world, and the cures effected by its use are so wonderful as to astonish every one. It is pre-eminence as a remedy for billious and liver complaints and derangements of the stomach and bowels, is no longer a matter of dispute or doubt. In these diseases the beneficial effects of Holloway's invaluable Pills are so permanent and extensive that the whole system is renovated, the organs of digestion strengthened, and full and easy assimilation promoted, so that both physical and moral energy are increased,

Determination of Blood to the Head.

This is generally occasioned by some irregularity of stomach and bowels, which, if not quickly attended to, frequently terminates fatally. A few doses of these famous Pills never fail to give tone to the stomach regularity to the secretions, and purity to the fluids. Vertigo dimness of sight and other indications of approaching apoplexy, are entirely dissipated by a course of this admirable medicine.

The Female's Best Friend.

For all debilitating disorders peculiar to the sex and in every contingency perilous to the life of women, youthful or aged, married or single, this mild but speedy remedy is recommended with friendly earnestness. It will correct all functional derangements to which they are subject.

Scrofula and all Skin Diseases.

For all skin diseases, however inveterate, these medicines are a sovereign remedy. While the Pills act upon the blood, which they purify, the ointment passes through the pores of the skin, and cleanses every structure, as water saturates the soil or as salt penetrates meat. The whole physical machinery is thus rendered healthy, regular and vigorous

Coughs, Colds and Asthmas.

No medicine will cure colds of long duration or such as are settled upon the chest so quickly as these famous Pills. Even in cases where the first stage of asthmas has appeared these Pills may be relied on as a certain and never failing remedy, particularly if the Ointment be simultaneously well rubbed into the chest and throat night and morning

Indigestion---Billious Headache.

These complaints may sometimes be considered trifling but it should be borne in mind that by inattention and neglect, they often end most seriously. Give early thought to a deranged stomach take Holloway's Pills, rub his celebrated Ointment over the pit of the stomach, and you will shortly perceive a change for the better in your digestion, spirits, appetite, strength and energy. The improvement, though it may be gradual will be thorough and lasting.

Holloway's Pills are the best remedy known in the world for the following Diseases:

Ague	Female Irregularities	Scrofula	King's Evil

FRENCH MEDICINES IN VOGUE.

BY GRIMAULT & CO.,

Chemist to H. I. H. Prince Napoleon,

49 RUE RICHELIEU, PARIS.

NO MORE COD LIVER OIL

RIMAULT'S SYRUP OF IODIZED HORSE RADISH.

This syrup is employed with the greatest success, in place of Cod Liver Oil, to which it is infinitely superior. It cures diseases of the chest, scrofula, lymphatic disorders, green sickness, muscular atony and loss of appetite. It regenerates the constitution by purifying the blood, and is, in a word, the most powerful depurative known. It never fatigues the stomach and bowels, and is administered with the greatest efficacy to young children subject to humors or obstruction of the gland. At last, it is very efficacious in the diseases of the skin.

No More Consumption.

GRIMAULT'S SYRUP OF HYPHOSPHATE OF LIME.

This new medicine is a sovereign remedy in phthisis and other diseases of the lungs, promptly removes all the most serious symptoms. The cough is relieved; the night sweats cease, and the patient rapidly recovers health.

No More Poverty of the Blood and Pale Complexion,

DRS LERA'S PHOSPHATE OF IRON.

This new ferruginous medicine contains the elements of the blood and bones, and iron in a liquid state. It is different from all hitherto offered to the public, is liquid, colorless and tasteless. It speedily cures chlorosis, pains in the stomach, difficult digestion, dysmenorrhœa and anæmia.

The majority of the Academies of Medicine of Paris recommend the Phosphate of Iron to ladies of delicate constitution suffering from anæmia, and other persons enfeigned from over anxiety, nervous emotions, over work, general debility and poorness of blood.

It is the only preparation which never causes constipation and can be borne by the most delicate stomachs.

Nervous Headaches and Neuralgias.

Instantaneously cured by

GRIMAULT'S BRAZILIAN GUERANA.

A vegetable substance, used from time immemorial in Brazil, and entirely inoffensive.

Better than Copahia

GRIMAULT'S CAPSULES AND LIQUID EXTRACT OF MATICO VEGETALIS

Where all other preparations have failed, these preparations will always effect a cure. These insure rapid and extraordinary cure of severe recent and chronic cases of private diseases. They are used in the hospitals of Paris, by the celebrated Dr Ricord, and are found greatly superior to all hitherto known mineral remedies and copaiba and cubebs. The injection is used in recent and capsules in more chronic cases.

DIGESTIVE LOZENGES AND POWERS OF ALKALINE LACTATES

BY BURINDU BUISSON,

LAUREATE OF THE PARIS IMPERIAL ACADEMY OF MEDICINE

This delicious preparation is prescribed by the most reputed doctors in France, against all derangements of the digestive functions, such as gastritis, gastralgia, long and painful digestions, wind in the stomach and bowels, emaciation, jaundice, and complaints of the liver and loins.
